

# Starting a Conversation About Charitable Giving

Questions to help explore the interests of your  
charitably minded clients:

What is the most satisfying charitable gift  
you ever made?

Do you have specific organizations you  
frequently support?

Would you be interest in charitable giving that  
focuses on your region of Idaho rather than on  
specific organizations?

Does the idea of making a permanent  
investment in your community appeal to you?

Do you want to involve your children or  
grandchildren in your philanthropy?

The Idaho Community Foundation can help you  
determine if there is an option that would work for  
your client. We can provide information for you to  
share with your client or we can meet together with  
you and your client. We always respect that you  
control the client relationship.
